Chairman's report

When I'm given some responsibility, I like to get down to work and get things done.

The big achievement of 2024 was the 1st WBFF Regional convention held in Indonesia.

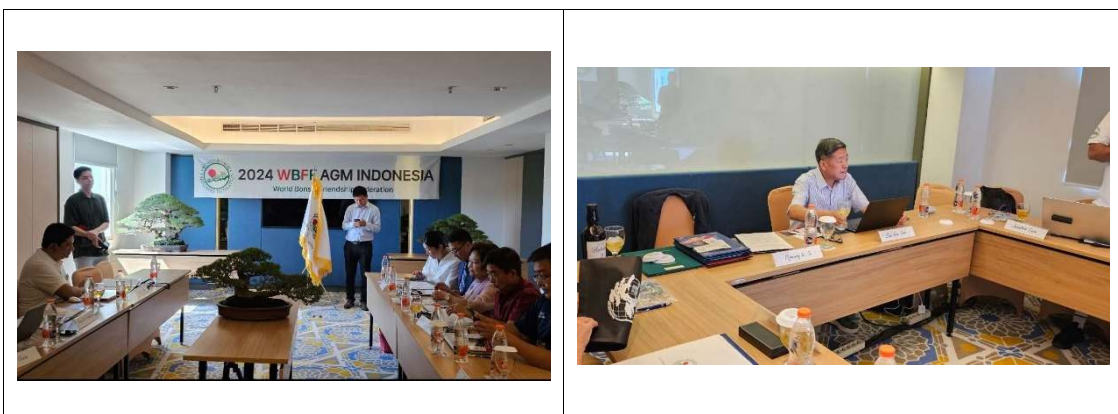

It was a successful 1st convention and the 2nd WBFF RO Convention is already anticipated.

I am working hard to promote WBFF and make the 10th WBC a successful convention.

And I am always thinking about how to increase the value of the WBFF name.

For this, the cooperation of the directors and international advisors in each region is essential.
